

FITTING A GEV IN JULIA

An aerial photograph showing a residential neighborhood in Julia, Mississippi, completely inundated with floodwater. The water is a murky brown color, covering the streets and yards of numerous houses. The houses have various roof colors, including red, grey, and brown. Many trees are visible, their green foliage partially submerged. A central street runs vertically through the middle of the image, with a few cars visible in the water. To the right, a green golf course is partially visible, also surrounded by floodwater. The overall scene depicts the aftermath of a major flood event.
