

PRACTICE PROBLEMS AND LAB TIME

An aerial photograph of a residential neighborhood that has been completely inundated with floodwater. The water is a murky, brownish-grey color, covering the streets, lawns, and yards of numerous houses. The houses have various roof colors, including grey, brown, and red. Many trees are visible, their green foliage partially submerged. In the upper right corner, a winding river or canal is visible, also filled with floodwater. The overall scene depicts a severe flooding event.
