

PRACTICE PROBLEMS AND LAB TIME

An aerial photograph of a residential neighborhood that has been completely inundated with floodwater. The water is a murky, brownish-grey color, covering the streets, lawns, and yards. Numerous houses with various roof colors (brown, grey, red) are visible, some with water reaching up to their windows. Trees are scattered throughout the area, their green foliage partially submerged. A few cars are visible in the water, and a small boat is seen in the upper right. The overall scene depicts a severe flooding event.
